size: 115m<sup>2</sup>

material: [premium set](#) (epoxy resin)

colour: RAL7016, anthracite grey

realisation: privat customer

**DeinTeich.de**  
Teich Pool Dach

This idyllic GRP garden pond was coated with the DeinTeich.de [Premium Set](#) with epoxy resin and glass fabric.

For the GRP (glass reinforced plastic) pond, the [HP-E80FS epoxy resin](#) was first applied to the concrete substrate as a primer. This was followed by the laminate, consisting of the [HP-E30TLS laminating resin](#) and three layers of [HP-B320/635E glass fabric](#). This gives the GRP garden pond the required strength and stability.

In the final step, the [HP-E30TDS epoxy resin system](#) was used for the colored top layer (RAL 7016-anthracite grey).

Whether you want to build a GRP garden pond, swimming pond or whirlpool yourself - DeinTeich.de offers the right coating set for your project!
