size: 80m²

material: [premium set](#) (epoxy resin)

colour: RAL9005, deep black

realisation: company

[DeinTeich.de](#)
Teich Pool Dach

A GRP roof coating serves the perfect basis for an extensive green roof!

For this roof, the [Premium Set](#) with epoxy resin glass fabric was used.

First, the substrate was primed with [HP-E80FS epoxy resin](#).

This was followed by the GRP coating with three layers of [glass fabric](#)

[HP-B320/635E](#) and the [laminating resin HP-E30TLS](#).

The [epoxy resin HP-E30TDS](#) was used for the colored top coat in

RAL9005-deep black.

Whether you want to build a GRP roof, garden pond or whirlpool yourself -

DeinTeich.de offers the right coating set for your project!
